Last update: Juli 2019

We need aprox. 30 minutes from get in to build up all of our stuff! Before and after showtime we need 10-15 minutes to change our clothes.

Stage plot:

	inst	mic	boom	etc
1	Kick	B52	small	
2	Snare TOP	SM57	small	
3	Snare BOT	SM57	small	
4	HH	cond	small	
5	Racktom	clip		
6	Floortom	clip		
7	OH L	cond	large	+48v
8	OH R	cond	large	+48v
9	Bass Synth DI	DI		+48v
10	Bass Synth MIC	MD 421	small	
11	Drum Synth	DI		+48v
12	Gtr Left	SM57	small	
13	Gtr Right	SM57	small	
14	Voc Left	B57	large	
15	Voc Mid	B57	large	
16	Voc Right	B57	large	
17	Space Echo	<return>		

Monitormix:

Monitor	Name:	Mix
1	Rosa	Vocal left, Guitar left and bit of other vocals
2	Alexandra	Vocal mid, Guitar right and bit of other vocals
3	Lucy	Guitar left, Bass synth, Vocal right and a bit of other vocals
4	Jochem	Both guitars, bit of vocals and Drum Synth

FYI:

Make sure we can get maximum output on the monitors without getting feedback. The vocals need to get **very loud** on stage.

Please provide a separate DI box for Bass amp.

EFFECTS:

Vocals - Slapback delay + 2sec. Plate Reverb
Drums - 1sec. Hall Reverb (especially on snare and toms, make it sound BIG)

Visuals:

One beamer with a laptop or DVD player. (very important!!)

Light:

We like blue! The room should be as dark as possible, the visuals will be projected over the band.

Hopsitality rider:

We would like to have a clean, lockable dressing room since we change clothes.
Preferably with a mirror and electricity.

We would also like:

- Salt
- Ginger
- Honey
- 12 bottles of water
- 1 crate of beer
- 1 bottle of vodka
- 1 bottle of apple juice
- 1 bottle of amarone wine
- Some snacks
- 4 clean towels

In case of having dinner at venue: please provide four healthy meals, no fried food please.

If something is not possible please contact us as soon as possible so we can work something out!
